In Article 4 of the Regulation of the Minister of ATR BPN No. 2 Of 2017 is described onseparation certificate, namely:²³
 - (1) In the event that such *Waqf* Land Property Rights referred to in Article 3, paragraph (1) letter a will endowment only a portion of the total area, first performed the measurements for the separation certificate.
 - (2) Separation of the certificate referred to in paragraph (1) made AIW or APAIW, and became the basis for *Waqf* Land Certificates issued on behalf of *Nadzir*. Separation of certificates was done to facilitate the certification process *Waqf* land has been certified as well as to minimize the occurrence of land disputes to come.
- After examination of the soil and found no problems last stage is the issuance of a certificate by the District Land Office Pati be on behalf *Nadzir*. Described in Article 5: In the case of leasehold certificates, Broking and Right of Use on land State referred to in Article 3 (1) b of the license if there is a record to be transferred, to be endowment must obtain prior permission from the authorities.²⁴

2.2. Effects Registration of Transfer of Rights of Ownership on Land for *Waqf* By Permen ATR BPN No. 2 Of 2017 in Pati regency.

The land registry positive implications on land law in Indonesia. In the practice of public life, a piece of land that has been endowment as a result will have a special status, namely the isolation of the *Waqf* land of transactions (sale and purchase, lease, grant, inheritance, guarantees, and other forms of transfer). As a result anyway he seems can be categorized as a rechtepersoon (legal entities), which is a legal person has rights and obligations in the life of the law as a legal subject. Said that because the procedure up to the submission, all activities in the community are activities *Waqf* property itself whose implementation is represented by *Nadzir*.

Land registration is essential as evidence of a strong right over land rights to prove as land owners legally. Property rights, thus each the transfer, abolishment and loading with other rights must be registered. *Waqf* land registration set forth in Regulation ATR BPN Number 2 Of 2017 concerning Procedures in the Ministry of *Waqf* Land Registration BPN ATR is a target to hold a legal simplicity. The effort toward legal certainty on the ground stated in the provisions of the Articles regulating the registration of land, in Article 19 BAL mentioned to ensure the Legal Certainty of rights over land, BAL government to provide land registration throughout Indonesia, is *Recht Cadastre*, means to ensure legal certainty, with the convening of land registration, then the parties concerned can easily be mengetahui the legal status of certain lands faces, location, area and boundaries, who is the owner, and the burdens of what attached above the ground. In general, the legal effect of registration of transfer of property rights to land as endowments are:

- Certain rights to someone; That is, with a transfer of registration of property rights for the endowment, the right person becomes clear.
- Circumvention of a dispute; If a piece of land that is already registered endowment, the unavoidable occurrence of land disputes, such as the withdrawal of the donated land, the denial pledge endowment, widely disputed land and boundaries.
- Establishment of a taxation; By knowing how big a piece of land, then based on it can be determined much tax should be paid.

Registration according to the BAL ditunjukkan to rights-holders in this case is *Wakif* and *Nadzir*, in order to create legal certainty for themselves, for the registration of any transfer, removal and pembebannya will cause a lot of legal complications if it is not registered, but registration is powerful evidence as required by Article 23 paragraph (1), that the property, and any transition, abolishment, and pembebannya with other rights must be registered according to the provisions referred to daam Article 19 BAL, as well as with the right to cultivate (Article 32 BAL) and building rights (BAL 38), including the terms of administration, as well as any transfer and the elimination of those rights should be registered.²⁵

2.3.Obstacles and Solutions in the Process of Registration of Transfer of Rights Reserved Land For Endowments By Permen ATR BPN No. 2 Of 2017 in Pati regency.

In the process of registration of transfer of property rights to land as *Waqf* based ATR BPN Regulation No. 2 Of 2017 in Pati Regency, the authors found no significant barriers. Obstacles encountered their authors are still some people in Pati regency are still reluctant to take care certificate donated land, because of the assumption that the *Waqf* land certification process requires very expensive. This is experienced by people who have been donating the land, but the status of the land is still customary land (soil C) or no certificate of ownership. As an example the case of land in the village endowment Wegil, sub Sukolilo that occurred in 2012 newly registered in Pati Regency Land Office in 2018. The duration of the registration period is in addition to the assumption about the high cost of certification is also due to the lack of public knowledge about the importance of legalization against status of land rights.²⁶

Based on research by the author, in fact Pati Regency Office of Religious Affairs in collaboration with the Land Office and the head of KUA throughout Pati regency

already provides a solution by multiplying dissemination to the public that confirms the certification fee donated land Rp 0, - or free. This is in accordance with government regulation No. 13 Of 2010 concerning the type and rate of the non-tax revenue types that apply to the national land agency. Socializing was an important moment, in order to complete the certification acceleration *Waqf* land that is across the head of KUA throughout Pati regency, which also Deed Official Pledge of *Waqf* (PPAIW). Later, Pati regency MORAWARAH prepare the data and donated land, while the District Land Office starch processing completion certificates. In order to accelerate the certification, currently available PTSL (Systematic Land Registration Complete), which donated land certificate issuance costs financed by the Ministry of ATR / BPN.

This is in accordance with government regulation No. 13 Of 2010 concerning the type and rate of the non-tax revenue types that apply to the national land agency.

2.2. Suggestion

Suggestions author in this study are:

- To society should be more open mind / open again to follow or learn socialization itself against persolaan pertaining on the ground, such as the importance of land titling, land registration process connection, as well as the fees charged.
- To *Nadzir*, should be more thorough and meticulous *Nadzir* again in endowment, because *Nadzir* is the party charged with the responsibility, so it should be more critical of the government agencies related to *Waqf* land registration process.
- To the head of KUA / PPAW should play an active role on his obligation to register land endowments, PPAIW also must mengadakan extension activities for *Nadzir* and *Wakif* about the importance of the legality of an endowment.
- To BPN / Land Office, which is a government agency at the district / city should be able to mobilize the *Waqf* land registration process. BPN can provide then by accepting all kinds of letters to registered origin *Waqf* land dispute. In addition BPN should also be more transparent about the process of land registration information.
