The authority of a Notary in providing special authority of Legal counseling is provided for in Article 15 paragraph 2 letter e ie Notary Providing Legal counseling in connection with the Preparation of Deed. It is in deed Making Authentic and this is a unity that can not be separated from one another.

## **2.2. Barriers and Solutions to Provide Role A Notary in Legal Counseling**

Legal counseling or description of the provisions of this Act was to assist in the Making Deeds are required and it is an inseparable unity of 1 (one) with each other. The advice must be given by a Notary must be based on a belief in the field of controlled and within the limits of its capabilities. Legal expertise in the field should be in accordance with the legislation in force.

Based on these descriptions author conducted interviews to Nurita Cahtur Wahyuni, SE,<sup>6</sup>one of the officials of the Bank Tabungan Negara, he was the party that often do contract by the debtor in the Bank Tabungan Negara, he said during a Notary rare to The Bank Legal counselling which in this case is a notary client itself. He also said the Notary sometimes come to the Office of the Bank Tabungan Negara is not coming to the Notary Office.

In the Notary Code also regulates the matters that must be obeyed by a Notary in carrying out His post and also outside run His post. In Article 3 of Notary Code of 2005, the results of the Extraordinary Congress of Notaries Association of Indonesia, Bandung, January 27, 2005 arranged on Liability Notary in carrying out His position must be obeyed and implemented and in Article 4 of Notary Code of 2005, the results of the Extraordinary Congress of Notaries Association of Indonesia, Bandung, January 27, 2005 regulate the prohibition or something that should not be done by a Notary.

In case this is not in accordance with Article 3 point 15 Notary Code of 2005, the results of the Extraordinary Congress of Notaries Association of Indonesia, Bandung, January 27, 2005 which reads: "Running His post in the office, except for certain reasons". If it is associated with the state courts overlooking the neighbour Notary Bank is not coming to the Notary Office. Obviously Notary itself does not carry obligation by not seeing Notary Code.

Based on the exposure of these events back Writer Interview Notary Ahmad Priyo Susetyo, SH, M.Kn.<sup>7</sup> He said about Facing and Dealing in writing in the deed. It is very common place in the notary in Banjarnegara and the surrounding area. This is because the number of notaries who do not understand their obligation to keep the Notary Public and Notary Code due to a very tight competition Notary and Notary vying to get the Client for its own sake so that Notary Public Notary Code neglect.

According to Abdulkadir Muhammad there are four (4) The fundamental reason Professionals, including Notary, ignoring the Code. These reasons include: Influence of Personality Kinship, Effect Position; Influence of Consumerism; and Because Weak

- Influence of Personality Kinship  
One characteristic of Kinship is giving the same treatment and respect to the family members and are considered fair. Treat against another person is not friendly. This affects the Legal Professional Conduct related to the Code of Professional Ethics, which should give the same treatment to the Client. A Professional Notary should distinguish between the issue of Family and Professional Issues. Kinship relations may be removed while in office but remains Kinship ties fostered outside the office;
- Effect of Position  
Position influence is also often a factor that led to the Notary apply without mengidahkan Professional Code of Conduct. Acting State Notary Public who serve should treat all people in the same notch. However, due to the influence of Position inherent in a person sometimes Notary act against a client privileged compared with other Clients. Perhaps it is human, but indirectly has made the difference between one human being with another human being. This treatment is a treatment that is not fair and therefore has violated the Notary Public as a Professional Ethics;
- influence of consumerism  
Materialistic-paced life can influence the actions of a Negative Notary. Consumerism demands that are part of lifeMaterialistic may come from themselves or family. A Notary when it was seized by the nature of the Notaries Consumer Materialistic and they often take steps that violate the Code of Conduct to meet the satisfaction of her life. Profession regarded as the fields to earn money alone and ignore the service functions inherent in a profession. May be mentioned here merely as an example the number of notaries who do pick up the ball to the Client in order to obtain a maximum Clientsnumber or suggest said every agreement, which in essence is not necessarily using the Notary Deed for the sake of his best-practices that they do;
- Being Profession Business Activity  
A man who devoted himself to such a Noble Profession Notaries must understand that different professions with Business Activity. Economic law can not be applied in a Noble Profession. Business focus On Its main objective which is to make a profit, while the ideals of a profession based on a spirit of willingness to provide service to the community. In a business activity necessitated Quantitative value while the profession is sought is not the value but the value of Qualitative. PES in the world of professionalism is not a major thing. There are two (2) principles that influence the PES system.

*First*, the principle serves within the wages received. This principle takes place or held when raised above profession basing their remuneration real profit or material benefit from services performed for members of the public. This principle allows for various forms of Fraud or Abuse serious. Such a system allows people a chance to use her ability selfishly, even untrue, against one another.

*Second*, is serving in accordance with the principle of inquiry. This principle can be found in self-professions basing their remuneration for their time, energy and expertise or specialty, as he felt as things that are necessary to be provided. In general, the second principle is considered more Sense, and the possibility of Fraud or Abuse of Position will be small;<sup>10</sup> and

- Due to Weak Faith

One of the requirements to become a Professional it is Faith to God Almighty, that execute commands and avoid his prohibitions. Faith is the basis of human morality. If humans strengthen the faith with Faith then be embedded within the brake Moral Values to behave badly. With Faith people more aware that good will be rewarded with good, on the contrary vices will be rewarded with evil. Indeed, God is the Most Just. With Faith to God Almighty, professionals have the Moral strong fortress, not easily tempted and tempted by the variety of forms of matter in the vicinity. With strong faith needs will be met in a reasonable and that is happiness.
