Jurnal Penelitian Didaktik Matematika

Kontinu: Jurnal Penelitian Didaktik Matematika merupakan e-jurnal yang diterbitkan oleh Program Studi Pendidikan Matematika, FKIP Unissula sebanyak dua kali dalam setahun pada Bulan Mei dan November. Jurnal yang awalnya bernama Jurnal Pendidikan Matematika ini mempublikasikan naskah-naskah artikel dalam bidang Pendidikan Matematika baik berupa diseminasi penelitian, telaah pustaka, maupun resensi dari buku ilmiah.

Dewan Redaksi

Editor in Chief : Mohamad Aminudin

Reviewer : Nuhyal Ulia
Isbadar Nursit
Anggar Titis Prayitno
Hasan Basri
Syarifudin Syarifudin
Ardhi Prabowo
Bagus Ardi Saputro
Eka Eka Zuliana
Iswanti Iswanti
Puguh Darmawan
Taufik M. Taufik Qurohman

Editor : Imam Kusmaryono
Dyana Wijayanti
Sri Rejeki
Zetra Hainul Putra
Mochamad Abdul Basir

DAFTAR ISI

Effectiveness of Learning Using Ethnomathematics Approach Assisted by Adobe Animate to Improve Understanding of Mathematical Concepts for Junior High School Students

By : Achmad Buchori, Jaka Wisnu Wardana and FX Didik Purwosetiyono
PGRI University Semarang 94

Ethnomathematical Study of Jepara Troso Ikat Weaving Motifs in Two Dimensional Geometry Mathematics

By : Rafida Salma, Dona Oktaviani Fevionika and Eka Zuliana
Muria Kudus University 102

Content Validity Ratio (CVR), Content Validity Index (CVI) and Confirmatory Factor Analysis (CFA) in Mathematics Learning Independence Instruments

By : Irfan Wahyu Prananto, Yeni Rakhmawati and Tubagus Pamungkas
Yogyakarta State University 116

Increasing Junior High School Students' Mathematical Comprehension with Realistic Mathematics Education (RME) Approach

By : Ukhti Agus Setyawati, Naning Kurniawati and Festian Cindar Bumi
Nahdlatul Ulama Sunan Giri Bojonegoro University 133

Analysis of the Mathematical Comprehension Ability of Grade XI Students on Story Problems Material on Arithmetic Sequences and Series

By : Violina Almaghfiroh and Taufiq Satria Mukti
State Islamic University of Maulana Malik Ibrahim Malang 147
